

Political Commentary by Bob Evely

October 2024

Since childhood we've been taught, "Don't talk about politics or religion." But let me tell you why I think it's important to speak openly about politics and religion

If we do not, then all that shapes the opinions and perspectives of the masses is the news media, or in the case of religion what people hear from the creeds and pulpits of the mainstream churches. On both fronts, the result is indoctrination with much error.

For years I steered clear of being so open. But with the amassing of money and power that now controls the media more than ever before, consolidated in the few (the richest – the elite), if we do not speak now ... we might lose the opportunity forever? Censorship is already being enforced in subtle ways. If we do not put a stop to it, freedom of speech may be lost forever (in the name of "the common good").

The news media has always practiced a certain degree of censorship, with ownership determining which news to cover, and which not. But with technology and the consolidation of ownership – the news media is now BIG business. And control-censorship is now in the hands of just a few.

Now, if we do speak out concerning politics and religion, be sure to say something meaningful. Don't say, "I support her because she is a woman as I am a woman." Don't hurl personal insults or castigations. Don't sink to name calling. Don't say, "My preacher told me" when we know there are trained ministers who would take differing positions.

When you speak and offer your opinion, talk in terms of issues! Talk about why you support your position on those issues. Give reasons!

Can we not be civil and have conversations about the issues ... political or religious ... and do enough thinking on our own to be able to give our logical reasons for taking those positions?

Anthony Horowitz Observations

I came across this powerful observation by Anthony Horowitz, a popular English novelist and screenwriter specializing in mystery and suspense.

"There is a rigidity in the way we have begun to think and speak. If we step outside certain lines on certain issue, we find not just people disagreeing – but disagreeing to the extent of death threats. When somebody says something untoward in the press, and I am not saying this about myself, people don't just say that was a stupid thing to say. They say, 'Lose your job.' They want you to never ever have an income again."

We are under serious threat of completely losing our freedom of speech, from those seeking to eliminate any views in opposition to "the narrative" from seeing the light of day. Do everything you can to prevent this from happening in your business or the company you work for!

Are Christians Not Supposed to Support Making American Great Again?

A recent post by a friend contended that Christians are not supposed to work at making America great again ... but to live counter-culture as Jesus did.

But if we want an example of someone that believed in national pride, it would be Jesus during His earthly ministry. He spoke and acted only for those within Israel – not the nations. When He sent out His disciples, He told them not to go to those of the nations, but only to the "sheep of Israel." (Read the Gospel of Matthew if you doubt me.) Jesus sought to introduce a restoration of the kingdom that once saw King David upon the throne – the kingdom of Israel. He sought to make Israel great again

(so that, according to God's plan, all nations could be blessed through Israel).

True, when the apostle Paul came later, he DID go to the nations – though at that point the focus was on the heavenly kingdom. But while Paul saw his citizenship to be in the heavens, he also invoked his earthly Roman citizenship when it served the purpose. So, he gave Christians an example of a dual citizenship.

As it pertains to our dual citizenship ... as citizens of the United States there is nothing wrong with supporting a candidate or political Party trying to make America great again, rather than a candidate and Party intent on tearing it down in favor of a world order. If America is made great again, it will be in a strong position to help those in need within other nations.

As Christians we're called to do good in the world... not expecting the government to do it for us. At the local level we're prepared to help those that truly need help – those willing to work and do all they can to stand on their own. But remove the consequences for those content at being lazy, and what have we accomplished? How have we helped these people by making them forever dependent on a welfare system (whatever you choose to call it)?

Bottom line – in the political realm, we should seek a government that provides stability and peace so we can live a quiet life and help others.

As for those pushing for a new world order – the only world government that can be a good thing is with Christ on the throne when He returns to this earth – not with some world leader(s) in charge. The global movement that opposes America's greatness is doing all it can to push God out of the picture. "Science" (so called) is promoted as the new god! But do you want to see what a world government without God, and without Christ on the throne, would look like? See Revelation chapters 13 through 19 – a godless global system that is finally brought to an end with the return of Christ.

Until then, the only way America can help other nations is to be strong itself. The Republic form of government is ingenious ... the best form of government this side of a heavenly kingdom. The American Dream is not to place everyone at the same level by taking from the affluent and giving to the lazy that are not willing to work and support themselves and their families. The American Dream is to give all the opportunity to make a better life for themselves, if they are willing to work toward that end.

All this to say, there is nothing wrong with seeking to make America great again! And this is why, as a Christian and as a lover of my country, I support Trump-Vance and Republican candidates across the board.

Argentina leads the way

In his first speech at the United Nations headquarters, Argentine President Javier Milei accused the international organization of promoting a "socialist" and "collectivist" agenda and said the country would abandon its long tradition of neutrality regarding world conflicts.

"The woke agenda's collectivism and moral posturing have collided with reality and no longer have credible solutions to offer to the world's real problems," the president said during the UN's 79th General Assembly.

In a speech replete with religious references, Milei said that the UN had "became a multi-tentacled leviathan, which seeks to decide not only what each nation-state should do, but also how all the world's citizens should live."

Milei also said the UN's 2030 Agenda for Sustainable Development, a 17-point goal declaration adopted by all member countries that includes goals such as tackling climate change and achieving

zero hunger, is “a socialist supranational government program.”

The president also criticized the UN’s Pact for the Future, which Argentina distanced itself from on Monday and aims for member countries to commit to action on issues including peace, poverty, climate change, and gender equality.

“We invite all nations of the free world to join us, not only in dissenting from this pact but in creating a new agenda for this noble institution: the agenda of freedom,” he said.

Milei listed alleged “mistakes and contradictions” the UN had committed, such as voting against Israel, which he called “the only country in the Middle East that upholds liberal democracy.” He also said the 2020 COVID-19 pandemic lockdowns worldwide were a “crime against humanity” and said that the UN “allowed the Human Rights Council to support bloody dictatorships such as Cuba and Venezuela without the slightest reproach.”

Since taking office, Milei has aligned himself with Israel and the United States, as well as international far-right political organizations such as the Spanish Foro Madrid and the U.S.’s Conservative Political Action Conference.

Milei also accused the UN of promoting a “toxic relationship between global governance policies and international lending agencies” and of “requiring the most impoverished countries to commit resources they do not have to programs they do not need.”

Biden – Why He Has Not Stepped Down

Think this through with me.

If Mr. Biden is mentally impaired – enough so that he dropped out of the election – then why is he still serving as President? Why has he not stepped down?

And if he is not mentally impaired, why was he permitted and even forced by his Party to step down after winning all primary elections – allowing the Party to hand-pick a candidate that had not been elected and that had limited exposure to the American people and limited vetting?

Let me tell you what I think.

Ms. Harris’s positions are so radical, if today became her “Day 1” for implementation, by the time the election comes the entire nation would see the damage and havoc created. So, her “Day 1” (even though she has been part of the current administration for nearly 4 years) is post-election when she, and her Party, are safe – if she wins.

At this point Ms. Harris will say whatever it takes to win votes. It may sound good at times, but the long game, not just by Ms. Harris but per the Dem Party strategy, is Global Socialism (if not Communism) by degrees. Her positions have changed at times, even though she contends her overall policies have not changed. President Trump, on the other hand, has remained true to his positions since he first introduced his “Make America Great Again” plan. And it is a good plan! It is a necessary plan if we are to save America and the freedoms we enjoy, including the freedom for ALL people to pursue the American Dream if they are willing to work for it!

Hopefully enough people will see through the Dems’ extremist and destructive policies that they will be handily defeated in November. The economy is desperately in need of serious attention, and nearly every part of Ms. Harris’s plan comes with a significant cost – and that will further sink our

economy and cause greater inflation that will result in a higher and higher cost of living for the American people.

Bi-Partisan Ticket

The Trump-Vance ticket is refreshingly bi-partisan, with RFK, Jr. and Tulsi Gabbard joining the ranks. Their surprising support, and the comments they've offered for making such a bold move, should cause everyone to pause and ask, "What makes the Democrats so alarming in this present election that some are crossing over and supporting President Trump?"

And Elon Musk is also in support of President Trump, providing a censorship-free platform which is much needed.

Some that are ordinarily aligned with the Dems are seeing sinister plans at work, and a need to join President Trump to reign in growing federal government and government control, to address censorship that make the news media an ad campaign instead of a news agency, to address out-of-control federal agencies that are being weaponized and fighting against big dollars controlling the election.

Add to this the absence of border controls, not only allowing serious criminal elements to enter, but also attempting to use these visitors as voters to control an election outcome. And all of this when our dollar is fading with an ever-growing debt and non-stop spending.

I sincerely apologize to those who think I have posted too much political opinion – but I see standing up and speaking as crucial because of fear for my nation and its future, much that same as RFK, Jr. and Tulsi Gabbard have expressed.

I encourage you to consider that this current Party called Democrats is not what it once was, and indeed has a very dangerous agenda. Go outside your chosen news media and listen to some of the videos available – especially those I've shared from RFK, Jr. and Tulsi Gabbard.

Conspiracy Theories

Think something through with me for a moment.

Mysterious private equity investors pay exorbitant prices for real estate, driving prices up astronomically. Often the purchased real estate is used as a rental. These investors are well-funded. Perhaps in a short time an election will be stolen as it was 4 years ago. (Can we remove the non-eligible voters from the registration rolls fast enough, and restrict voting to only eligible voters?) The Dems push through their plan for assessing capital gains tax on unrealized gains (before the asset, including a home, is sold). Investments collapse due to the extreme devaluation of the dollar, due to reckless government spending (among other things). But despite the economic collapse, property values will not have gone down as the mysterious equity firms will still have resources (the well-funded “elite”). Property owners cannot pay capital gains tax and lose their properties. Property is largely owned by the state. “The Great Reset” has been accomplished.

As RFK, Jr. has observed recently, those touting “The Great Reset” will tell you that no one will own property, but everyone will be happy. (With the governments of the world in conjunction with the “great minds” of the elite controlling everything, what could possibly go wrong?)

Another conspiracy theory?

Well maybe we just live in a world filled with innocent coincidences. Consider ...

Four years ago, the economy was humming under President Trump, and his re-election seems certain. Suddenly we’re hit with a pandemic – one that we’ve subsequently learned had very likely escaped from a lab in China that the World Health Organization and our own National Health Agency had a hand in.

And while denied at the time, this lab (and others) was doing very dangerous research concerning viruses. A coincidence, I suppose that this very dangerous research was being done in China (of all places) and that the virus escaped the lab just in time to cause economies of the world to collapse, society to shut down, and a Presidential election in the US to be manipulated.

Consider that medications which could have been repurposed to treat Covid were showing good results but were then outlawed – with the single focus being the jab that the entire world was being coerced to accept. Was it coincidence that big pharma made big money from this jab, while they would have made nothing from a repurposed drug?

Consider that any news concerning side-effects from the jab were silenced by the media. Consider that statistics were heavily skewed to instill continued fear in We the People, attempting to drive us to the jab.

Consider the sudden reversal of policies by the Dems, who decide not to enforce border-immigration laws – and who actively invite hordes of immigrants to enter the US illegally.

Consider the push from the Dems to allow non-citizens to vote, and to be counted in the census that would provide them with more seats in the House.

Consider the attempt to increase the size of the Supreme Court, so the Dems could appoint their own Justices while they controlled the White House and Senate – making the High Court political, and controlled by the President and Congress.

Consider the finding of thousands upon thousands of illegal voters on voter registration rolls, many of them non-US citizens.

Consider the recent assassination attempt on President Trump – with the shooter given a chance to fire several shots before being eliminated quickly, never to speak or be interviewed.

Consider that an incumbent President limped along through the primary elections, shielded by the Press to hide his growing infirmity, until just prior to the Dem Convention he steps down – and we suddenly have a “democratic” candidate who was not a choice of the people, but appointed.

Consider how this candidate has largely been shielded from public view so the public cannot get a close look but is dependent on the picture of her painted by the Press.

Consider the growing number of documents that are made Classified – hidden from the eyes of we the people.

Consider the number of “coincidences” – and the timing of them. This sure doesn’t look like coincidence to me! And it looks like the Dems are heavily implicated! What was once the Party of the people has become, in the words of RFK Jr., “the party of war, censorship, corruption, big pharma, big tech, and big money, wanting to abandon democracy by canceling the primary to conceal the cognitive decline of the sitting President.”

Coincidence – or conspiracy? Consider the recent admission by Mr. Zuckerberg that Facebook was pressured by the Dems in the midst of Covid to hide information from the public. And again just prior to the election when FB was pressured to hide certain stories, alleging them to be Russian disinformation that would be harmful to the Dems in the election.

Seems like an awful lot of timely coincidences!

But if the news media is controlling and censoring information, where does one turn to for information?

First, if you’re going to consider what the media has to say, look at ALL media and compare – including lesser-known sources like Epoch News, Newsmax, Breitbart. Compare the sources and think for yourself as to what makes sense.

Second, think things through as I have just done – and consider what makes sense in light of all the “noise.”

And third, read RFK, Jr.’s book, “The Real Anthony Fauci” which is well-researched and heavily footnoted. You can see my notes from this book posted on my web site (see the link below).

It has often been said that President Trump is a danger to democracy and must be stopped. As we look at the two candidates in the upcoming Presidential election, it is not President Trump that is the danger.

<https://evelylc.com/wp-content/uploads/2023/11/Real-Anthony-Fauci-The-Bill-Gates-Big-Pharma-the-Global-War-Robert-F-Kennedy-Jr-Bobs-Book-Notes.pdf>

Corporate Tax Higher when offshoring

I love President Trump’s idea to tax corporations higher if they offshore ... lower if they do production in the USA. I have long been an opponent of offshoring ... and advocate for bringing production jobs back to the US.

Debates

I did not watch the debate. In my life I have never watched a Presidential debate, despite my interest in politics and government.

Debates have nothing to do with the overall policies of the candidate – or those of his/her Party. They

are just a display of the candidates function in front of the camera at a single point in time. And since we know that President Trump has been aggressively attacked by the news media for the past eight years, it is no surprise that the news media would manage the debate to do everything they could to align with their preferred candidate, and against President Trump – attempting to make one look bad and the other good.

But let us now forget that it is the POLICIES that are of utmost importance and should direct our vote. And with the Party called Democrats becoming more and more extremist and militant, attempting to take us further down the road toward Socialism and even Communism – it matters not how any candidate does in a debate setting controlled by a biased news media.

Democrats and the Economy

When the economy needs attention, it has never been the Democrats that could be trusted. Every part of their plan has always been to spend more on programs that are often ineffective. They know how to spend – coming up with band-aid solutions that they sell to the public. But these band-aid solutions always come with severe side-effects. Not the least of which is reckless spending (which the Democrats are quite good at) that leads to larger-and-larger debt and a devaluation of the dollar, adversely affecting all Americans.

President Trump offers practical solutions that are good in the long term. He receives much criticism based on his person or side-track issues – but he had the economy humming quite well four years ago when suddenly, “coincidentally,” a pandemic hit. Looking back, he was the one that should have been trusted in dealing with that as well.

As for social programs, the Democrats have been at it since the 60’s and aside from some minor improvement in the early days, we’ve seen that the programs are failing. All they’ve done in recent years is create a long-term dependency on the government, while the family units receiving welfare benefits have largely fallen apart (the real problem that needs to be addressed).

I just read J.D. Vance’s “Hillbilly Elegy.” Here is a man who overcame poverty and welfare issues in Appalachia and took responsibility for lifting himself up. He has a heart for those stuck within the welfare system (Appalachian and inner-city) and is committed to working with President Trump to bring real solutions.

So, on both fronts ... the economy and social programs ... the Trump-Vance administration is the only option.

Democrats in control of our cities

The Democrats have controlled our nation’s larger cities for many years. Their policies have failed the working poor and the non-working poor in these cities who now depend on handouts. But there has been no long-term, permanent change in living conditions.

Furthermore, traditional family structures have fallen apart in our cities. This is the real problem that perpetuates poverty and total dependence – and is again due to the policies of the Democrats.

It’s time to give the Republicans a chance with some fresh new policies. President Trump and his VP (JD Vance) want to bring production jobs back to the US, and to help people learn to stand on their own rather than depend on an ever-growing government that seeks to control us and treat us all as little children unable to control our own lives.

Vote Trump-Vance. And let’s give Republicans a chance in every federal, state, and local office across this nation.

Destructive Elements of the Liberal Agenda

I have nothing personal against the individuals that comprise the Presidential ticket for the Democrats. My issue is with the destructive agenda that is being promoted. Consider this agenda, as we see every component being pushed upon us every day!

Entanglement with the news media – a media that shapes society as opposed to reporting the news.

Entanglement between Big Pharma and government agencies and officials – with financial incentives to said officials when patented drugs are pushed.

Censorship! I hear talk of limiting free speech in some cases. Already we see censorship in the medical community, per Mr. Zuckerberg's testimony of what occurred during the virus fiasco. And as already mentioned, censorship by the media that causes a political candidate to be seen as the agenda wishes them to be seen – good or bad.

The push for a Supreme Court that does not recognize the Constitution but is politicized in favor of the Liberal agenda.

Attacks on our Republic form of government, not recognizing that a pure democracy would cause great division in our nation and eventual destruction of the freedoms we have come to enjoy.

Globalism – where we yield to world “authorities” and give up our national sovereignty.

Weaponizing of the courts and of some federal agencies to keep the masses in submission.

Unchecked immigration with no enforcement of immigration laws – inundating our economy when it already has problems and allowing entry of dangerous invaders with an unfriendly mission.

Erosion of election integrity, under the guise of making it easier for all Americans to vote – when in reality it makes it easier for fraud to enter, causing election outcomes to go per the agenda.

Loss of production jobs, enabling corporations to cut costs with offshored labor – while many Americans remain unemployed or under employed.

Disastrous economic policies – some of which have already adversely impacted our economy in the form of inflation and the devaluation of our dollar. Another four years would be disastrous to our nation.

Creating racism with its unreasonable attempts to eradicate it.

Promotion of gender confusion in our schools.

Failure to support law enforcement – allowing and even encouraging violent gang takeovers and, at times, unchecked looting.

Attacks on capitalism in favor of socialist and even communist policies – without recognizing that capitalism and the free enterprise system is what enabled our nation to become great.

Larger federal government with an ever-growing number of regulations – great for those practicing law but not so great for We the People.

Attacks on the Second Amendment to eliminate any threat to enforcement of the Liberal agenda, while leaving us helpless to defend ourselves.

Eroding loss of personal liberties and freedoms (again, as we saw during the virus fiasco).

This is the significant threat our nation faces, in the form of the Party called Democrats!

Destructive elements of the Liberal agenda – Pt. 2

When you consider the most destructive components of the Dems' agenda (as I've done below), it's quite scary, and much like a dystopian novel. This helps us to understand why "Day 1" for Ms. Harris is post-election. If the agenda was implemented now, the further erosion of our economy and the continued decline of our nation would be apparent.

I recently saw this summarized well: "If Trump was going to destroy America, he would have done it in his first term. If Harris was going to help America, she would have done at least something these past 3 ½ years.

Consider the agenda of the Democrats:

Globalism – yielding to world "authorities" and "experts" to save us, as we give up our national sovereignty. The World Bank and World Health Organization are two examples.

Weaponizing of the courts and some federal agencies to keep the masses in submission.

Unchecked immigration with no enforcement of immigration laws – inundating our economy when it already has problems and allowing entry of dangerous invaders with an unfriendly mission.

Disastrous economic policies – some of which have already adversely impacted our economy in the form of inflation and the devaluation of our dollar. Another four years would be disastrous to our nation.

Loss of production jobs, enabling corporations to cut costs with offshored labor – while many Americans remain unemployed or under employed.

Attacks on our Republic form of government, not recognizing that a pure democracy would cause great division in our nation and eventual destruction of the freedoms we have come to enjoy. Those in the heartland of our nation have a much different perspective than those in the populated coastal areas. They have a voice only because of our Republic form of government, and that is why this nation has survived as long as it has.

Attacks on capitalism in favor of socialist and even communist policies – without recognizing that capitalism and the free enterprise system is what enabled our nation to become great – giving EVERY citizen an opportunity to work and provide for themselves – and to be as successful as they choose to be.

Larger federal government with an ever-growing number of regulations – great for those practicing law but not so great for We the People.

Erosion of election integrity, under the guise of making it easier for all Americans to vote – when in reality it makes it easier for fraud to enter, causing election outcomes to be manipulated and controlled per the agenda.

Failure to support law enforcement – allowing and even encouraging violent gang takeovers and, at times, unchecked looting.

Censorship! I hear talk of limiting free speech in some cases. Already we see censorship in the medical community, per Mr. Zuckerberg's testimony of what occurred during the virus fiasco. Censorship by the media causes a political candidate to be seen as the agenda wishes them to be seen – good or bad.

Eroding loss of personal liberties and freedoms (as we saw during the virus fiasco).

Entanglement with the news media – a media that shapes society as opposed to reporting the news.

Entanglement between Big Pharma and government agencies and officials – with financial incentives to said officials when patented drugs are pushed.

The push for a Supreme Court that does not recognize the Constitution but is politicized in favor of the Liberal agenda.

Creating racism with its unreasonable attempts to eradicate it. The extremist WOKE agenda has caused much division and racism, as has such things as removing statues honoring Confederate soldiers – family members of many still living – causing great resentment and division.

Promotion of gender confusion in our schools.

Attacks on the Second Amendment to eliminate any threat to enforcement of the Liberal agenda, while leaving us helpless to defend ourselves – even as there are calls to defund the police.

When you hear Ms. Harris speak you may think, “She is not as extreme as all of this.” But she is a part of the Liberal machine, and this is clearly their agenda. I recall hearing President Obama say (after President Trump was elected) that he moved too fast! I didn’t think much of it at the time, but now I know exactly what he meant. The push toward all of these things I’ve listed has been moving America in this direction for some time, and the plan is to move slowly so the American people will not be alarmed. It is like boiling a frog. Put a frog in warm water and slowly, slowly heat it up – and the frog will tolerate it and stay in the water. Heat it up too fast and he will jump out.

When President Trump was elected it was the American people “jumping out” from the decay our nation was experiencing. So you will never hear the Liberals talking about the end game – but only what sound like innocent steps that will be tolerated.

This is the significant threat our nation faces, in the form of the Party called Democrats!

As long-time Democrat Robert F. Kennedy, Jr. observed – the Party called Democrats is not the Party it once was. “Democrats have become the party of war, censorship, corruption, big pharma, big tech, and big money, wanting to abandon democracy by canceling the primary to conceal the cognitive decline of the sitting president.”

If you’re thinking of voting Democrat because you always have, consider these words from a once-staunch Democrat.

Election Integrity

In a democratic Republic (which we are), the integrity of our elections is crucial. I believe that a large percentage of Americans lost trust in the election process four years ago.

I’m encouraged to learn that some states have taken on campaigns to purge their voter registration rolls of ineligible voters. This should be a requirement in all states – regularly. And in federal elections (President, Senate, and House) those precincts failing to abide by sound standards to protect against irregularities should have automatic audits by a panel represented by both Parties – and open to ALL members of the news media (not just those owned by large mega-corporations).

To go a step further – any voting by non-citizens or others ineligible to vote should be treated as treason against our nation. This would also include those attempting to vote (even if they are turned away), assisting ineligibles to vote, harvesting votes, and poll workers. ANY who have a hand in such tampering in the election process should be prosecuted for treason. Affecting the outcome of elections is serious business, and a threat to our Republic. Penalties must be severe if the issues are to be corrected!

If we adopt these processes and standards, we will go a long way toward restoring the integrity in our election process and regaining the trust of Americans.

Lastly – no ballots should be destroyed under any circumstances. All should remain intact and open to inspection in an audit process. Audits should be routine even where no recount has been requested in national elections – open to the public. And if irregularities appear to be present, continue the audit and recount until completed – not suddenly stopping the process as was done four years ago.

I am not naïve enough to think these measures will be adopted before the upcoming election. But concerned citizens should report any infractions, taking photos and videos when possible.

Farmers for Trump

During our trip last week to Michigan, I was encouraged to see so many Trump signs in rural areas. All through southern Michigan, and then again in northern Indiana. And as we entered Shipshewana, Indiana there was a large sign that read: “Farmers for Trump – Keep America Green.”

Farmers know the adverse impact that the Dem agenda will have if the current economic policies continue.

Firefighters for Trump

Note the two very different reactions from this group of Shanksville firefighters. While this is just a single episode, I think it's indicative of the reactions among the working class after what they've experienced over the past 4 years.

https://uk.news.yahoo.com/trump-biden-harris-greeted-very-055625616.html?guccounter=1&guce_referrer=aHR0cHM6Ly93d3cuZ29vZ2xlMnVvbS8&guce_referrer_sig=AQAAAKuiNv20FajgU58CQ2VXkR6KxgvTJ0eKqw0iMVYjW27HsuqXN36L8PhXHI-8MXeSCu6DH6EwX7_r7nmWgZ8pzSj6dcxlbz7BpjiNAXAJKDOriTkvSqlJSuLQN8SovMX6b28lgsVnRsXiZ4kiTzesvyEFSlljorQBBcZ13tDv8FNJ

Follow the Money

When you see or hear something in the news, ask yourself ... who owns this news media? And what are their motives?

In times past, the Press always had a motive. Besides making money, the ownership was openly Republican or Democrat. So you knew where they stood. You knew their motives. Today, after mergers and consolidations, the power is in few hands – and the money behind it is HUGE.

What about the pharmaceutical industry? When you're told you must have a certain vaccine, ask yourself ... who benefits from this? Consider the case of Ivermectin during the recent Covid years! This was a drug proven effective and used consistently for some viruses. But its patent had expired. It would have made sense, when Covid rolled in, to repurpose this drug which proved successful in many tests. But that would mean no money for Big Pharma or for drug researchers. So ivermectin was prohibited, and any who tried to prescribe it or provide it faced loss of license and livelihood. So despite proven success, and because of BIG MONEY, Ivermectin was removed from circulation ... most definitely resulting in deaths -- hidden from the public.

This is what happens when Big Pharma is working in concert with the News Media to ensure their large flow of money!

Kill any news stories that oppose the agenda!

Manipulate other news stories to portray the image that fits your agenda!

Kill any positive stories about a drug, however effective, that can no longer yield a large income!

Use your great power and influence to control the narrative, threatening to destroy careers and livelihoods of any who might contradict the narrative!

Collaborate (or more correctly “collude”) between big money news media, social media, pharmaceutical, and government agencies and officials!

Over the past few years, the Democrats have implicated themselves in all of this to build their power base. Once the Dems stood for the little guy. Now it’s about Big Business, Big Government, building a world “system” (which is why so many U.S. jobs have vaporized as the functions are now done offshore), lots of control over we the people.

And ... elections manipulated to prevent a candidate who might disrupt the flow of money by opposing globalism and preaching American greatness.

Inexplicable changes in Party policy have allowed and even encouraged hordes of immigrants to illegally enter our country, given financial support as our dollar continues to devalue. We have seen reckless spending when the debt is already excessive to the point of destruction. We’ve seen news stories killed, voting-in-person shut down, the use of mail in ballots that are easy to manipulate, failure to audit against registered voter lists, failure to purge ineligible voters from registered voter lists! And four years ago, when recounts in several key states seemed to be going against the candidate selected by Big Money, the recounts were suddenly stopped.

All this to say, it’s very often about the money. Follow the money. Consider the source ... always. And think about the motive. If you think it’s benevolence ... for the good of mankind ... you’re probably mistaken.

Freedom of Speech

Ms. Harris has expressed a desire to regulate free speech. If she is able to proceed with such a plan, let’s consider some of the things that will come under attack. We might no longer be able to say such things as:

Merry Christmas

Christ

Any Bible passages

Contending that the mainstream News is false

Contending that elections were manipulated to control the outcome

The Cleveland Indians

The Washington Redskins

Radical Islam

Israel (Palestine will be the approved alternative)

Any Confederate hero

Christopher Columbus

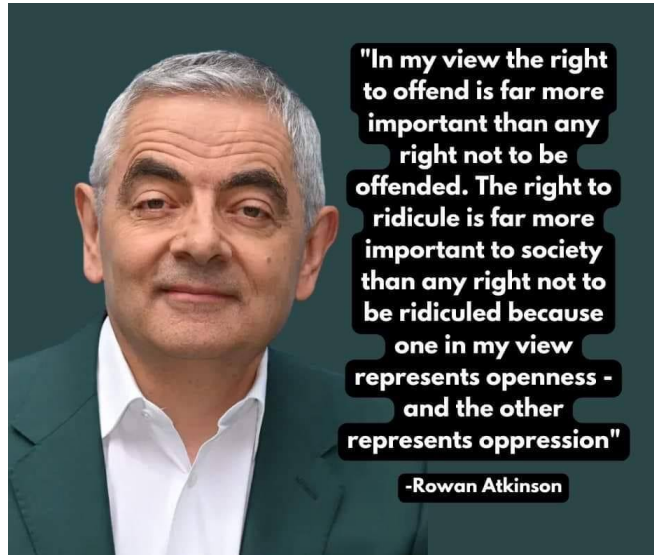

Any criticism of race theory, gender theory, white privilege theory.

Criticism of communism or socialism.

Are you beginning to see? There is no end to where this could go.

There are things I would not say myself, but I would defend the right of others to say them. Because

Freedom of Speech must not be surrendered! And if we give in just once, the cascade of prohibited words and phrases will follow until all free speech is lost!

Helping those in need

Those of you with compassion for those in need,
Despite where the mainstream news agencies and the global elitists might be leading us ...

It's ok if you hate socialism and communism as a form of government.
And it's ok if you support President Trump's agenda to make America great again.
And it's ok (and necessary) to help those God has placed in our path that have need.

This is capitalism with compassion.
To build a stronger USA so we're in a healthy position, able to help those TRULY in need.
And to help those we encounter that need help.

Not socialism ... which is destructive, oppressive, and always riddled with corruption.
But in our Democratic Republic, as individuals we should be helping those God has put in our path.

People helping people truly in need is what we should be doing.
Not people pushing governments to set up social programs.
That is impersonal, distant, and ineffective.
There is no distinguishing between needy – and lazy!
And it leads to ambivalence, loss of self-respect, and laziness.

Jesus never promoted socialism, or any kind of government reform.
He taught people to help others that had need.
As a matter of fact, the only form of government promoted in the Bible is a monarchy,
With only Christ Jesus on the throne.

Illegal Immigration, or Invasion?

It is unfathomable that many in our nation have no problem with unchecked illegal immigration,
With no attempt at enforcing any immigration laws,
With financially rewarding those who have entered illegally,

With no attempt at sending back even those committing crimes,
And even approving of the concept of letting non-citizens vote.

We are not a part of some world government!
The United States of America is a sovereign nation.

There is a legal process for those wanting to immigrate.
It is a process that ensures we do not allow dangerous criminals to enter,
Criminals intent on destroying America,
And some having no qualms about saying that is their agenda.

It is a process that ensures that not so many enter that will create a financial burden on our nation.
And in these days when our economy is out of control,
Allowing such an influx to enter illegally without lifting a finger is most definitely damaging our economy
And adding to our national debt when we should be addressing how to balance our budget.

Think this thru with me for a moment.
Let's encourage illegal immigration with no limits,
Let's encourage these non-citizens to vote, overwhelming our ability to audit votes,
Let's consider these hoards of added illegal population when we do our next census,
Let's add Representatives to the House in these areas – mostly cities; Democrat strongholds.

What is the end game in all of this?

I believe it is to make our nation a one-party system,
In effect a Dictatorship with the liberal, globalist elite in control,
Ultimately Marxism – Socialism or even Communism,
With no threat of an alternate Party ever winning another election.

While this is not overtly stated,
This is exactly (in my opinion) the objective.

It is why some, like former President Obama who once objected to illegal immigration
Is now silent on the matter ..
Because it serves the Democrats in an attempt to win an election (or shall we say steal an election).

What the Democrats are doing seems to be a lot like buying votes,
And as far as I know, buying votes is not legal!
But the strongholds of the Dems seem to be OK with selectively enforcing laws anyway.

All this to say,
We need to remove non-citizens from the voting roles as we see is already being done in some areas.

We need to monitor all ballots cast to be sure they are legitimate.
We need to severely punish any attempting to vote that are not US citizens,
Or who are not otherwise qualified to vote.
And we need to severely punish any who attempt to facilitate such illegal voting,
Poll workers and any others.

This election is not like the old days, Republican against Democrat.
It's about our free Democratic Republic vs. Marxism.
It's about remaining free!
It's about protecting our nation against those wishing to destroy it,
Those seeking to make us a part of a World Order run by Global Elitists.

This is not about immigration!
It's an invasion!

Job creation?

When we talk about job creation, in fairness – the current Administration cannot count jobs being added back that were lost because of their extreme and unnecessary response to Covid.

Besides causing jobs to be lost as businesses were shuttered, they paid people so much with Covid-money for an extended time that they refused to look for work.

And then, after a time, when these people did go back to work – they count it as job creation! Really, it's just people they caused to lose their jobs that subsequently, at long last, found new jobs.

And no, it wasn't Covid that caused businesses to be closed and jobs to be lost – it was the voluntary actions in response to Covid, championed primarily by the Dems. Shielded by censored alternative views and slanted statistics, much havoc was done.

To make matters worse, I recently heard of a case where a municipality was spending "Covid-money" for improvements – in 2024! Is this not taxation without representation? Couldn't the Covid-money that was not used have been returned to the general coffers so taxes could be reduced, or at least not increased?

Remember what was done to us these past four years. We need to get this nation back on its feet, great as it once was. Vote for President Trump and the entire slate of Republicans to turn this nation back around!!

My Body My Choice

"My body my choice!" I largely agree with this.

Do you trust your God-given immune system vs. an untested, unnecessary shot? That is your choice.

Do you trust your immune system to the extent that you choose to mingle in public settings, while others choose to remain isolated? That is your choice.

Do you choose to have sex? That is your choice.

Do you choose to use protection when having sex? That is your choice.

But ... abortion is not about choice at all, because abortion involves a life separate and distinct from that of the mother – the life of a pre-born child. Abortion is not a "my body my choice" issue at all. It's about killing an innocent little pre-born child!

Yes, science shows us that this is an independent life – with his or her own heartbeat, gender, and blood type. And science has enabled us to see very clear images of this growing, living being that is quite distinct from his or her mother.

In the womb, a preborn child can suck their thumb, produce tears, make facial expressions, sense touch, hiccup, and yawn. They are not a "clump of cells" – but human lives.

Before pregnancy becomes a reality, one's choices have been made. But abortion is not about choice. It's about murder – the killing of an innocent, pre-born child.

“Progressive”

It comes to mind that the word “Progressive” in terms of politics is really a movement away from God, moral values, and truth – in favor of a society that is supposedly based upon “science” and complete tolerance of the worst of behaviors. It is not “progressive” at all, but a “digression” from truth and from God.

The only thing that will not be tolerated are viewpoints that contradict the single narrative that those in power want us to see and hear.

But this “science” is not truly science. It is science controlled by big money and bias. Our recent journey through Covid reveals the hand of Big Money, Big Tech, and Big Pharma controlling the narrative. Any bad news concerning the single medical approach is silenced. Doctors opposing did so under threat of losing their licenses. This was a most visible display of the forces at work to control the narrative and to present “science” as the new god.

“WOKE-ness.” Extreme political correctness. Cancel culture. Critical race theory. White privilege. Failure to prosecute criminals. Condoning those that burn and loot and destroy the property of others. Removal of the freedom of speech “for the public good.” All of these play a part in the movement that is called “Progressive.”

RFK assassination in 1968

A very interesting interview with RFK, Jr. about the assassination of his father in 1968. Whether his opinions are completely accurate and true is hard to know -- but he does bring forth some things that were not presented back in 1968 and that seem credible.

If this is only partially true, it is an example of the Deep State that President Trump referred to many times. What with the new evidence that has come forth regarding our nation's response to Covid under the direction of Fauci, I think we do see bureaucracy at work to cover itself to keep the flow of funds moving into their coffers.

And one observation I would offer -- this nation does seem to be quite quick in deeming things to be “classified” quite quickly, and quite liberally.

If the RFK assassination was an attempt to prevent instability within our nation ... the doors are open to cover such thing as election fraud that quite probably swayed the results of the last Presidential election -- so that the masses would not lose faith in the election process (even though it seems to be riddled with problems. Likewise -- any narrative in support of treatments aside from the jab might cause the masses to lose faith in our health agencies, and they might push back against taking the jab.

Turns out -- we were right to push back.

And in light of this, it's hard to know what our agencies much be capable of in the name of the public good, or the nation's stability (in their opinion). It's a matter of “experts” making decisions for us, while we think we're making the decisions ourselves. And this is exactly where those pushing toward a global government want us to be!

RFK, Jr. & Freedom of Speech

Take a few minutes to watch this short interview with RFK, Jr. and the importance of free speech. It's

amazing how educated this man is – and how insightful!

<https://www.youtube.com/watch?v=3UMaPNEZg7w>

RFK, Jr. & Tulsi Gabbard

It seems huge to me that two very high-profile Democrats have now endorsed President Trump ... first RFK, Jr and now Tulsi Gabbard. Obviously, they are seeing some big dangers to our nation in the Harris-Walz agenda.

In his speech, Kennedy said, "Democrats have become the party of war, censorship, corruption, big pharma, big tech, and big money, wanting to abandon democracy by canceling the primary to conceal the cognitive decline of the sitting president."

Now Mark Zuckerberg (Facebook) has stated that he was pressured by senior officials in the Biden Administration, including the White House, to censor certain Covid-19 content in 2021. He said he believed the government pressure was wrong, and he regrets not pushing back. On another note, Zuckerberg stated that the FBI warned about potential Russian disinformation about the Biden family and Burisma, leading up to the 2020 election. Facebook "demoted" that story – but acknowledged that it was since made clear that reporting was NOT Russian disinformation.

The Zuckerberg testimony helps us to understand the bold actions by RFK, Jr. and Tulsi Gabbard – and it should show us there are significant and dangerous issues in the agenda of the Democrats. The fact that RFK, Jr. and Gabbard have taken these drastic actions and are now supporting President Trump is most revealing.

In light of all this, I wanted to re-share my notes from the book written by RFK, Jr. which are posted on my web site. The following link will take you to these notes.

<https://evelylc.com/wp-content/uploads/2023/11/Real-Anthony-Fauci-The-Bill-Gates-Big-Pharma-the-Global-War-Robert-F-Kennedy-Jr-Bobs-Book-Notes.pdf>

Tulsi Gabbard – A Warning to America

Tulsi Gabbard is a Democrat, challenging us with this well articulated warning to America. She, like RFK, Jr. (another Democrat), sees great danger in the current Administration and in the Democrats in this upcoming election.

Whatever your Party affiliation, this speech is worth a listen! Ms. Gabbard delineates the dangers we face, and the failed policies of the Democrats. She touches on the weaponization of government agencies, failed border policies, and the outright lies from the mouth of Ms. Harris. She chastises Ms. Harris and the Dems for not being interested in solving problems or helping American people in need.

She notes that while all Presidential elections are important, this one is ESPECIALLY critical. She warns that we are on the brink of WWII – one spark away from our demise directly because of the policies of the Biden-Harris Administration.

She notes the exploitation of our problems and the fear that has been propagated as an opportunity to take away more and more of our freedoms.

And she openly talks of her support for President Trump in the upcoming election – as the only choice to walk us back from the brink of nuclear war, and to return us to a state of peace, prosperity and freedom.

What, Not Who, Are You Voting For?

The following LinkedIn post was shared with me, and it was too good not to pass along.

Over the weekend, a friend sarcastically said, "I can't believe you are going to vote for that guy." I simply replied, "I'm not voting for a PERSON!"

"I'm voting for the First Amendment and freedom of speech.

I'm voting for the Second Amendment and my right to protect my family.

I am voting for energy independence and cheaper gas.

I am voting for a cap on government spending rather than a cap on groceries.

I'm voting for the Police to be respected once again and for law and order.

I'm voting for secure borders and legal immigration.

I'm voting for peace in the world and avoiding WWIII

I'm voting for Freedom of Religion.

I'm voting for common sense policies and less regulation.

I'm voting for the right to speak and not be censored.

I am voting for schools to teach math, history, and science instead of indoctrination of our children."

I'm voting for my children and grandchildren to ensure their freedoms and future."

I then asked my friend, "WHAT are YOU voting for?"

Remember, a vote is not a Valentine. You aren't professing your love for the candidate. It's a chess move for the world you want to live in! Choose wisely!

Why the Liberals Dislike President Trump

The Dems don't really care about the substance of their personal attacks on President Trump.

What they really dislike are Trump's policies.

But since his policies resonate with the majority of Americans, they try to bring him down with personal attacks, and fabricated lawsuits that are a weaponization of our judicial system.

They were relentless in the four years of his Presidency.

And for the past four years they continued the attack, trying to disqualify him as a candidate and otherwise discredit him.

But what they really fear are his positions! Why?

Because as the liberal machine marches on toward socialism and globalism ... surrendering America's premier position and yielding to a rule by all nations ... Trump wants to bring production jobs back home, secure the borders, focus on security and peace, fix inflation, and make America great again. He seeks to ...

Protect the Republic form of government, and the Constitution.
Focus on the economy.
Bring production jobs back to the USA. Jobs for all!
Fight against globalism, protecting our sovereignty as a nation.
Fight against the growing power and authority of government bureaucracies.
Reduce the size of government.
Reduce the deficit.
Fights against digital currency. Protect the integrity of the dollar.
Restore election integrity, and our faith in the election process.
Enforce immigration laws – and all other laws.
Support Law Enforcement.
Fight against socialist and communist policies.
Protect the 1st Amendment – Freedom of Speech (no censorship).
Protect the 2nd Amendment – the Right to Bear Arms.
Protect our personal liberties and freedoms.

Truly this election is about saving America!

Who Else but President Trump?

I wanted to share a few of my thoughts concerning President Trump.

I must begin by saying, God is in control – regardless of the outcome of any election.
He will accomplish His objectives in the ways and in the time He deems appropriate,
And nothing can stop Him.

One day this great nation, and all nations, will collapse,
And He will return in that final era to rule.

But until then, we live in this temporal world,
And we seek the best for our children, and for our fellow citizens,
To preserve this nation and our freedom,
Until God chooses to call His Believers home and usher in the final phase of His plan on this earth.

And this is why I write these words!

You who criticize President Trump, mostly about his personal life,
Or who demean those who say a positive word about him,

Yes, there are things he has said and done in the past that are less than exemplary,
And that he most likely regrets.

But some of what he is accused of has likely been fabricated by his enemies.

And as for the recent trial of President Trump,
Only the most severe of His critics would say that trial and its outcome were fair.
It was just one more in a long line of attempts to discredit and defeat him.

And yes, he could be more polished in his interactions with the Press,
More polite and perhaps a bit more reserved,
Less boastful and more humble, approachable,
A bit more like President Reagan, the greatest of Presidents,
A bit more “Presidential.”

BUT ... what other candidate will stand up for the things that have made our nation great?
The things that have preserved our freedom for well over 200 years?

Who else will fight back against globalism to protect our sovereignty as a nation?
Against those who would defer to the world's "elite" to dictate and impose restrictions on us?

Who else will fight for election integrity?
Vote harvesting is a menace to election integrity.
It is simply the liberal harvester placing an X on the ballot on behalf of another,
As if the Harvester knows what is best.
And so the Harvester is able to vote multiple times.

And as for computerized voting machines which we have seen can be hacked,
Let us audit every ballot manually by a committee equally balanced between the Parties.
As for mail-in ballots, either outlaw them – or audit each ballot as just mentioned.

As for non-citizens voting?
Really?
This is OUR country – those of us who are legitimate citizens.
Non-citizen voting and the absence of any attempt to control our borders,
Is nothing more than a ruse by a political Party to control the outcome of an election,
And to defeat the Republic form of government!

Moving on ... who else but President Trump will bring business back to the US?
Or shrink the federal government?
Or speak the truth concerning Red China?

Yes, it is China that is our real enemy, not Russia!
And China can be defeated without a war,
Just as they are currently defeating the US without a war.

Who else will bring business production back to the US?

And who else will stand up against radical Islam?
As Israel, on its small piece of real estate, tries to simply survive,
She faces a sea of enemies all around,
Bent on erasing her from the face of the earth.

Let the many Arab nations rub out radical Islam; not Israel.
If they are willing, they certainly have the power to do so without our intervention.

And who else will fight for truth in journalism?
Not journalism that is bought by big business with any opposition views censored!

Who else will fight Big Pharma which censors not only the Press with its big money,
But also medical research?

Who else will stand up to those who cry "racism" as the young boy once cried "wolf?"
Thereby creating even more racism instead of combatting it?

Who else will stand against the out-of-control political correctness ...
Against "woke-ness" ...
That threatens our very precious freedom of speech?

Who else will uphold immigration laws and standards,
Not keeping everyone out – but requiring them to "come thru the door?"

Who else will bring some common sense to our society,
When gender confusion seems to be ruling the day?

Ignoring one's God-given biological gender,
And breeding confusion among our young people who think gender is fluid,
Or something they need to decide?

Who else will focus on providing jobs for all of our nation's citizens – not handouts?
Allowing all to feel good about themselves,
And encouraging hard work and independence!

And when social programs are implemented,
Who else will insist that they be effective if they are to continue?
Who else will stop throwing money and more money with no accountability or effectiveness?
Who else will stop the creation of programs that cause individuals to be forever dependent,
Rather than helping when needed while enabling the recipients to become independent?

Who else will stand up to the likes of Bill Gates,
Who would like to enforce his personal beliefs on every person in the world,
As he once did at the helm of Microsoft,
While, as always, realizing great personal financial gain?

Or Mr. Fauci, also driven by personal gain and power ... and not public health at all?

Who else will fight the Deep State,
The system of bureaucracy that is so entrenched,
That it feeds on itself for purposes of its own perpetuation,
Instead of serving the citizens of our nation?

Who else will rock the boat that is leading us to the edge of a gigantic waterfall,
Before it is too late?

You who ask how Christians could support a man like President Trump,
Consider the many who seek to ridicule and silence forever the voice of Bible believing Christians,
Claiming to stand for science,
Which is really bad science as influenced and controlled by big money.
Who else will stand up against them?

Who else will protect our personal freedoms from those pushing for greater government control?
Government that would impose arbitrary restrictions for the supposed "good of all",
Abuses we saw take place during the covid catastrophe?

Or to protect our free enterprise system that has served us well for well over 200 years,
When socialism would most certainly have destroyed us by now.

Who else will protect our Republic form of government,
Instead of a nationwide majority vote system,
That would silence the voice of the common-sense heartland of our nation,
And eliminate the rights of our individual states?

Who else will appoint Supreme Court Justices and Federal Judges,
That will protect our Constitution,
Instead of pushing for a different, a weaker form of government,
That will not last?

You might wonder why President Trump continues to grow in popularity.
And you might criticize President Trump, or those who support him,
Those of us who are frustrated and fed up with where others are guiding this great nation.

And when you think about the current occupant of the White House,
And his administration and his Party,
With their policies and stances on the issues mentioned here, and many more,
Policies that are clearly destructive to our nation,
I ask you,

Who else but President Trump?

Who else?

Be Still and Know That I Am God

As we face political turmoil every day,
As we live in a turbulent world,
As we face suffering and loss,
As we face setbacks in our careers or in our business,
And struggles that seem, at times, insurmountable,

We can take comfort in a single passage from the Bible,
From God's revelation to us,

"Be still, and know that I am God" (King James Version)
"Relax and know that I am Elohim" (Concordant Version)
(Psalm 46:10)

God is in control

I apologize for having so much to say in so many posts about the upcoming election. As you can tell, I feel strongly about this election, far more than any previous election, because of what I view to be catastrophic consequences for our nation if we continue to proceed down the path we are on.

And, despite all I've said about the election, I don't ever want to oppose God and His plan. Truly I do believe God does have a plan for this world and for all people – and He is active in unfolding it.

I know from God's Word that at some point this nation and our government – and all nations and their governments – will fail! When that happens, we will see that all nations, regardless of their form of government, can survive only when dependent on God. That is the plan revealed by God, speaking of the time leading up to Christ's return to earth (see the book of Revelation). It won't be pleasant for earth's inhabitants, and according to my read of the Scripture, I will be gone before things totally destruct.

I am vocal in politics as a warning as to what lies ahead – so when the events do take place upon the earth, people will be ready. And perhaps even before the end-time events take place people will turn to God and be driven to His Word to focus on things that are truly important.

As for now, the battle is not against the other Party, but against Globalism (yielding to a world authority or group of authorities) and Marxism leading to Communism. This is not overt at first – but an enemy we thought had been defeated now attacks us from within our own nation. The evil is unrecognized due to naivety and trust in "democracy" and its leaders.

It is amazing to me that the media is so one sided – so unified with a single narrative determined by those behind the scenes that are in power. This became VERY obvious during the Covid years. Big money was, and is, at stake!

So, one candidate is fact checked and vilified continually. The other is not really known at all. One has been subjected to nothing but bad, pointed Press – while the other is built-up (despite the sorry state of affairs on so many fronts over the past four years).

In light of all this, what is the right thing to do? Certainly we must trust God and expect our government to do its best to preserve peace and security within our nation. And certainly we are to do our best to help as we encounter need. – not pushing our government to do it thru ever growing social programs but doing it ourselves as we encounter it. Just do it!

Know that spiritual forces are at work that are influencing leaders to say and do certain things. And even if this election does not go as I think it should for the preservation of the United States, God is in control. Again, what lies ahead for this world will not be pleasant, but in the end we will understand. And all will be ok.
