Dear President Trump,

I wanted to share the following that I just posted on Facebooks. Thank you for all that you're doing on behalf of this country and its people.

**

I do not like sharing political posts of others,
But I would like to share some of my own thoughts.

I stand not with Ukraine,
And certainly not with Russia.
I stand with the USA,
And with our President and VP who love this nation.

We are blessed to have a President who is a seasoned and effective negotiator.
Yes, he seems rather hard at times – but that's what it takes in world negotiations.
And NONE of us know the inside story that affects our stance as negotiations take place.
We see only what the Media want us to see.

President Trump seeks peace, not war.
And we are blessed to have the AMAZING team he has assembled,
A better team than I can ever remember in my lifetime, and in my reading of history.

Beware of anything coming from the legacy news media.
Their accounts, their opinions, their polls, and even their photos and videos,
Often slanted and distorted to impose their bias and influence upon us.
We saw it during COVID – and during the election season.
Their clear bias continues to be there,
And we must remember that if we subject ourselves to all forms of news media.
Read and listen to them all, if you like – so you will see all sides.

The Media continue to be fueled by the ultra-liberal machine that will continue to attack Trump,
To slow him down or derail him,
To push toward their destructive open borders and globalist policies,
Refusal to enforce the law,
Seemingly to bring this nation and all individual nations down,
And to place us under the authority of a world government,

To censor us and remove our free speech,
To disarm us so we are helpless to resist,
To remove our right to own real estate,
With all housing owned by the federal government or their chosen elite,
Putting us at their mercy – lest we disobey and are evicted from our home,

Censoring our free speech,
Removing all influence of Christianity and any opinions contrary to their narrative,
Forcing our submission to “science” (so-called),
And to medical “experts”,
To inadequately tested vaccines and other medical procedures,
Bringing big money to globalist Big Pharma companies,
While silencing any opposing medical opinions,
And eliminating research of vaccine injuries,
And censorship of anything to do with the origins of viruses.

So ... as for current affairs,
I do not support Ukraine,
I do not support Russia,
I support the USA,
And I support President Trump and his amazing team.

I respect his negotiation skills,
His love for this country,
And his desire for peace, not war,
Something that every liberal once stood for.

Our President serves not for money,
Not for power,
But because of his obvious love for this country,
And perhaps to seal his legacy as one of the best Presidents ever to serve.

Thank you, President Trump!

Yours very respectfully,

Bob Evely
